

CLIENT PROFILE

Our clients range in age from 2-80, come from all over Northern Colorado, and have been referred by 38 different agencies. Please note that while we report "Crime Type" based on the predominant crime, a single client may be the victim of multiple types of crime.

CLIENTS SERVED

The majority of our funding goes towards client services. In our audited financial statement for 2014, our administrative costs were below 10%. Our focus is on our clients, and ChildSafe offers a combination of group, individual, and family therapy tailored to their individual needs.

CLIENT INCOME

BY PERCENTAGE

Over 84% of our clients are low income, which is defined as 80% of the Area Median Income (AMI) and below. No one is turned away due to an inability to pay. While fees are assessed according to a sliding scale, are based on income level, and can be as low as \$5 per session, we have clients who struggle to afford that amount.
